25 SIX FIGURE BUSINESSES YOU CAN START TODAY

ENTREPRENEUR MILLIONAIRE

Hi, one of the biggest challenges with starting a company is finding an idea that fits you. You want to solve a problem while also having an idea that aligns with your interests and skills. One thing to keep in mind is that many profitable businesses are not glamorous. Check out the following 25 Six Figure Businesses You Can Start Today.

1. **Blog** - Ex. [Entrepreneur Millionaire](#). A blog that empowers individuals to become successful entrepreneurs and millionaires.
2. **Shopify Store** - Ex. [Luxury Weave Store](#). A business that uses Shopify to sell 100% Virgin Human Hair online. With Shopify dropshipping, you can list products on your online store and sell them to website visitors. Once someone purchase your products, you then pay the supplier and they will ship the product to your customer on your behalf. For more info on making money on Shopify, check out this [course](#).
3. **Social Media Marketing Agency** - A business that helps individuals and businesses promote & sell their products and services through social media. For example, let's say you are working with a Dentist to help them bring in more patients. You can use platforms such as Google Ads or Facebook Ads to bring in those patients. For more info on creating a SMMA business with a focus on FB Ads, check out this [course](#).
4. **Amazon FBA** - A business that uses Amazon to pick, pack, and ship their orders. You purchase products from a supplier and send those products into Amazon. Then, you create listings for those products. Once a sale is made on Amazon, Amazon will ship the product to your buyer for you. Check out this [course](#) on the Amazon FBA business.
5. **Amazon Kindle eBook** - An eBook that is sold through Amazon Kindle's platform. You can create an eBook using Apple Pages or Microsoft Word or any text editor then upload to Amazon Kindle.
6. **Online Course** - A course that helps individuals achieve a goal and is sold online. In a digital world, you can create a course on just about anything. You just have to know

more than the person you are teaching. You can use platforms such as Teachable or Udemy to host your course. Check out this [course](#) to launch your own course.

7. **AirBnb** - An apartment, condo, or house rented through AirBnb's platform. If you do own property, you can rent out your property using AirBnb. You can also construct partnerships with Landlords & Property Owners to rent out their properties and split the cash flow. For more info on starting your AirBnb business, check out this [course](#).
8. **Rent out Single Family Home or Multifamily Apartments** - Buy a single family home or multifamily apartment complex, then rent out the house or units to tenants. Many millionaires became millionaires through the ownership of real estate. Once you own a property & have good property management in place, this can be a solid stream of passive income. For more info on Apartment Real Estate, check out this [course](#).
9. **Affiliate Marketing** - Selling other people's products and services and receive commissions from each sale. If you don't have your own products or just looking to create a nice stream of income, consider being an affiliate of products you like and already use. Check out this done for you [program](#) to get started in Affiliate Marketing.
10. **Android/iOS Apps** - A business that creates Android and iOS apps and games. Creating apps and games is still a viable business in today's time. Think of apps and games that are making solid cash. Dating apps, action games, the list goes on and on.
11. **Website Flipping** - A business buying websites, improving their value, and selling them. If you have some experience driving traffic to websites, this can be a good business for you. Think about it, you can purchase a website that sells solid products, but just need marketing and come in and drive traffic to increase sales. Then, you can sell the website at 20X - 30X profit per month.
12. **Wholesaling Real Estate** - Finding distressed properties, putting them under contract with the intent to assign the contract to another buyer. With small capital, a plan, and consistent marketing you can create a business wholesaling properties to buyers who have money. For more info on wholesaling apartments, check out this [course](#).

13. **Cleaning** - A business cleaning residential and commercial properties. With some equipment and negotiating skills you can strike up contracts with businesses and residents in your city to clean their places on a consistent basis.
14. **Consulting** - A business that helps individuals achieve a goal. Similar to coaching, you can create a stream of revenue helping other people achieve a particular goal. Think of some things you are good at, then think of some people who aren't good at those things but want to become good. Sell your services to those people.
15. **Turo** - A business renting out cars through Turo's platform. You can start with a 2nd car you may not be driving that much, then you can expand with more cars later. Soon, you can have a fleet of cars that are making money for you.
16. **Penny Stock Trading** - A business buying and selling penny stocks. With a proper plan and guidance, you can make a living day trading penny stocks (stocks under \$5).
17. **Courier Service** - A business delivering products to businesses and individuals. Although many industries are turning to the internet, there is still a need for delivery of physical products and goods. This is where you can step in and make a profit.
18. **Cell Phone Repair** - A business repairing cell phones. With more people buying cell phones and kids getting cell phones at younger ages, there's a need to fix phones with cracked screens and broken parts. You can purchase a cell phone repair kit on Amazon. Purchase a few phones with broken screens, fix those screens successfully, then start marketing your service.
19. **Cell Phone Flipping** - A business buying and selling cell phones. This business can go hand in hand with the cell phone repair business or be its own separate business. You can negotiate prices on used cell phones and purchase them on marketplaces such as Facebook Marketplace, LetGo, and OfferUp, then you can resell those phones on eBay.

20. **Lawn Care** - A business maintaining the lawns of homes and businesses. With more homes and subdivisions being developed, there's still a need for homeowners to have their lawn mowed and weeds trimmed.
21. **Podcasting** - A business producing high-quality audio for consumers to listen to. You can literally start a podcasting business today. All you need is a device to record audio (a cell phone or computer works), a mic, and a topic and you can start today. Once you publish your podcast on public platforms such as Apple Podcasts, Stitcher Radio, Soundcloud, etc. you can reach out to businesses to get them to be a sponsor.
22. **YouTube** - A business producing high-quality audio and video content for consumers. With a YouTube channel, you can promote your own products related to the content of your channel or even promote other people's products/services for additional revenue. Check out this YouTube [channel](#).
23. **Mobile Car Detailing** - A business detailing vehicles at the user's location. With the right attitude and equipment, you can start a business detailing vehicles for individuals and businesses at their location.
24. **Mobile Laundry Service** - A business that picks up, launders, and drops off clothes to individuals. People love products and services that make their life easier. With a mobile laundry service you can turn dirty clothes into clean clothes for those who are too busy to do it themselves.
25. **Bookkeeping** - A business that helps other businesses manage their income and expenses, payroll, and tax returns. With new businesses getting started everyday, there is still a need for people who can help these businesses manage their finances, payroll, and taxes as they grow.
